H. R. Dering, Assistant General Passenger Agent of the Pennsylvania Company, has gone to Chicago.

Nearly all of the most prominent officials of Indianapolis roads are in attendance upon the meeting of the Chicago and Onio River pool at Chicago.

A large number of the Indianapolis roads are taking advantage of the moderate weather by making necessary repairs in the track and bridges.

O. E. Grady, formerly Train Master on the Illinois Midland, has been appointed Maser of Transportation of that road with headquarters at Decatur.

It is stated that the rails of the Indiana and Illinois Narrow Gauge, which suspended operations the other day, will be taken up and sold for old iron. What will be done with the equipments none can say.

The growth of the Logansport division of the Vandalia to so extensive a line has caused the nick-name of "The Pumpkin Vine" to be dropped, and that part of the system, so far as the name is concerned, is a thing of the past.

The productive capacity of the steel rail mills of the United States is about 1.600,000 tons per annum. About 600,000 tons went into new lines last year, and the amount used on renewals, new second track and siding is estimated at 650,000 tons, or 5 42 per cent of the total amount of rails in track. At the end of 1883 a little more than half the track of the United States was

The Committee of Fifteen have formed an agreement, to be entered into by all competing lines through Kansas City, St. Louis, Chicago, Evansville, Louisville, Cincinnati and all gateways through Indiana, Illinois, Iowa, Michigan and Ohio, to sustain full rates under the arragements promulgated last spring, and demand from connecting lines a full proportion of rates. Under the agreement every line is compelled to adhere to the rates that have heretofore ruled.

Baggage was limited to wearing apparel only. There was no checking bag gage. A man always carried his other shirt

wrapped up in a newspaper. The Sentinel of yesterday contained an item stating that a rumor was affoat to the effect that Mr. William Dowd would in all probability be tendered the Presidency of the Louisville, New Albany and Chicago Road, and, judging from the tenor of the remarks of Monon people, who speak on the subject at all, the rumor is not without foundation, An L., N. A. and C. stockholder, who is acquainted with Mr. Dowd, says that he is one of the best railroad men and financiers in the country, and with such a man at the head of the Monon, the stock of the company would advance perceptibly. "With the assistance of Mr. Carson," said the stockholder, "he managed the affairs of the Hannible and St. Joe Road in a very able manner, bringing it up to its present state of excellence, and I can not help but think he is just the man for an aggressive road like the L., N. A. and C. I do not know, however, whether he will or not be appointed at the coming annual meet-

Ever since the Lackawanna and Pittsburg had its difficulty with the Globs Fast Freight Line, which resulted in the withdrawal of that line from the road, it has been evident outsiders that the company was in financial straits. The road recently defaulted on its interest and a receiver was appointed. The Globe Line gave it about all the freight is had, and since its withdrawal there has been but little freight for it to carry. It is but a year ago that the Lackawanna and Pittsburg opened, and at that time it seemed as though there was a fair future before it. With all its trembles come now the resignations of Mr. R. M. Patterson, General Superintend ent, and Mr. George A. Baker, Traffic Manager. It is understood that Mr. Patterson will return to the employ of the Pennsylvania. Mr. Baker but recently resigned as Freight Agent of the Buffalo, New York and Philadelphia at Rochester to accept the position with the Lackawanna and Pittsburg. There is reported to be several months' wages due to the employes of the road.

THE O. and M. COMPROMISE. The London papers give the following as an official statement of the articles of agree-

ment between the "English" and "B, and O." parties in O. and M. management: 1. That two of the (English) committee's nominees be placed on the board-two of

the Baltimore and Ohio party retiring. 2. That the number of members consti tuting the Executive Committee be increased from three to five, two of the English Committee's representatives being elected to

serve thereon. 3. That the disputed entries in the bond voting register be canceled, and a fresh register opened, votes to be allowed on presentation of bonds only. 4. That the necessary amendments be made in the company's by-laws, and inspec-

tors at next election be mutually agreed to. THE NEW ORLEANS AND NORTHEASTERN. A New Orleans paper, after stating that there is no truth in the rumor to the effect that President John Scott, of the Cincinnati. New Orleans and Texas Road, intends to tender his resignation, says: It was claimed that the reason Mr. Scott wished to resign was due to fact that certain stockholders in the system were continually kicking about the expenses of the system, and that Mr. | Nicholas McCarty et al. to Thomas W.

Scott had become tired of the constant

growling. It appears, however, that the truth of the matter is that the syndicate controlling the Cincinnati, New Orleans and Texas and Pacific Road are well satisfied with the management of Mr. Scott and the judgment and executive ability he has shown in handling the business of the system.

The New Orleans and Northeastern Road. which is not much more than a year old, has made a brilliant showing during the past twelve months. It is evidenced by the fact that during the month of December, 1883, the earnings of the road amounted to about \$36,000, but during December, 1884, the earnings ran up as high as \$97,000, which, to say the least, is a decided increase, and indicates very plainly that the older the road gets the greater is its business.

Washington Special to Springfield Republican, Jay Gould is expected here on his way South. His brokers and agents have been summoned to meet him to give him their information concerning the probable legislation which affects Union Pacific and Western Union. He has about a dozen lobbyists here in his regular pay, including one New York broker, who has all winter been giving quiet little "stag" parties at a hired house near Secretary Chandler's. These dinners have been kept very quiet, but though expensive the Gould agents think that they are worth the outlay, as it seems now to be settled that no hostile legislation regarding Union and Central Pacific will be accomplished this winter.

Punishing a Foolish Lover.

|Buffalo Courier. |

A Kentuckian whose best girl had married another man sued out an order of delivery for the love letters which he had sent to the young weman, declaring in the document that they were worth \$100, and that he was unlawfully deprived of their possession. A constable armed with the proper documents

was dispatched to recover the valued epistles. When the law papers had been read to the defendant, who is described as "a pretty fig-ure in a blue Mother Hubbard and long blond curls," she exclaimed: "Of course you can have the letters. I only wish I had time to read them to you. Some of them are the silliest things I ever saw."

> All Satisfactory. [Buffalo Courier.]

The general opinion seems to be that Mr. Cleveland's letter to the Civil Service Reform Association is everything that could be asked for. It has been pronounced by many the best and strongest public letter he has ever written.

Vanilla Cream Cake .- Two cups of powdered sugar, two-thirds cupful of butter, four eggs, one half cupful of milk, one-half teaspoonful of sods, one teaspoonful of cream tartar, three cups of flour. Bake in thin layers as for jelly cake, and spread between them when cold the following mixture: One half pint of milk (sweet), two small teaspoonsful of corn-starch, one egg, one teaspoonful of vanilla, one-half cup of sugar. Heat the milk to boiling and stir in the corn-starch wet with a little cold milk, take out a little and mix gradually with the beaten egg and sugar, return to the rest of the custard and boil, stirring constantly until quite thick. Let it cool before you flavor, then spread on cake. Flavor both cake and icing with vanilla.

For sandwiches take equal quantities of the breast of cold chicken and cold boiled tongue; chop them fine-so fine, in fact, that you can not distinguish the separate particles; add a good large half-teaspoonful of celery salt, a pinch of cayenne pepper and four tablespoonfuls of mayonnaise dressing. This amount will be enough to season the breast of one large chicken and an equal quantity of tongue. When this is cold spread some thin slices of bread with butter, and then with this mixture.

If charcoal be finely pulverized and mixed with mashed potatoes and cornmeal as food for turkeys they will fatten more readily than without its use, which has been demonstrated by actual experiment.
